## PROJECTS

### College Enquiry System (Chatbot)

- Built an Interactive Chatbot: Developed a college enquiry chatbot with Python, Tkinter, and ChatterBot, making it easy for users to get the information they need.
- Used NLP for Accurate Responses: Incorporated natural language processing to ensure the chatbot understands and responds to queries quickly and accurately.
- Automated Info Retrieval: Simplified the process of getting details about admissions, courses, and faculty, making it faster and more efficient.

### E-commerce Website

- Fully Working E-Commerce Website: React JS was used to create a whole e-commerce platform.
- Designed a dynamic homepage with banner ads and products that are currently popular.
- Improved User Experience enhanced product pages, a more efficient purchasing cart, and safe verification all contribute to better browsing.
